FROM THE CHAIRMAN

A young man recently entered the board room in 2019 and introduced himself saying, 'Do you remember me?' I replied, "Jog my memory please". He continued, "In 2017, you filled up at the garage I had worked at for 10 years. You told me that I was still young and should advance my career options by studying".

Unfortunately the company he worked for did not offer leave on Saturdays. I felt moved to assist him and offered him a bursary at SA Maritime School. He completed our Certificate in International Trade and then Freight Handling part-time in his second year. He then landed a learnership with Bulk Connections and told me "This has truly changed my life!".

We are in the business of changing lives, and nothing excites me more than seeing a young person reach new heights to explore their potential!

Peter Fitt - Chairman & CEO

ABOUT US

SA Maritime School & Transport College sets the standard in training and development for the maritime and transport industries.

As one of South Africa's oldest private training institutions in the maritime and logistics sector, SA Maritime has been dedicated to quality training since its establishment in 1986 by Commander Peter Fitt Senior.

SA Maritime School takes a personal interest in their learners with hands-on training by our industry-experienced facilitators and assessors, who are all experts in their field, with a passion for developing young people.

We offer a range of courses equipping learners for all aspects of the marine, shipping, and transport industry. Our training and courses have certification from all the required regulatory institutions.

Over the past 40 years, we have consistently equipped learners with industry-relevant and future-focused skills, ensuring their seamless integration into the workforce. Our mission includes building strong industry partnerships to enhance the practical training we offer.

Peter Fitt - Executive Director

Michelle Fitt - Executive Director

Emmanuel Jin - Managing Director

FREIGHT HANDLER

NQF 03 | 12 MONTHS

CREDITS 122 | SAQA I.D: 96396

A Freight Handler professional is responsible for the movement of goods and ensures that freight is handled safely and in an efficient way. A Freight Handler receives, allocates, stores, picks, reconciles, and dispatches freight through a storage facility.

COMMON TYPES OF FREIGHT HANDLING MACHINES

- **Forklifts**: Lift/move pallets (counterbalance, reach truck, pallet jack)
- **Cranes**: Lift heavy/oversized loads (overhead, gantry, mobile)
- **Container Handling Equipment**: Ports/terminals (reach stacker, straddle carrier, empty container handler)

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Warehouse operator
- Warehouse assistant
- Logistics assistant
- Dispatch and/or receiving clerk

REQUIREMENTS:

Grade 10

Forklift Operator

Ver.1 | © 2026 SA Maritime School & Transport College

TRANSPORT CLERK

NQF 04 | 10 MONTHS

CREDITS 121 | SAQA I.D: 94025

A Transport Clerk compiles and keeps records of operational aspects and coordinates the timing of the movement and supply of freight (goods and livestock) and passengers from origin to destination in terms of stakeholder requirements.

It involves the movement of all goods and materials from raw material stages, through the manufacturing process, to the delivery of finished products and their disposal. It also deals with the routing and/or scheduling of freight and passengers, using all transport modes and related activities.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Fleet administration
- Transport Scheduler/Dispatcher
- Documentation Clerk
- Transport Operations Assistant

REQUIREMENTS:

Grade 12

OUR COURSES

DIPLOMA IN FREIGHT HANDLING LOGISTICS

NQF 05 | 24 MONTHS

CREDITS 240 | SAQA I.D: 110394

Learners will be able to take responsibility for the planning, handling, storage, and transportation of goods nationally as well as internationally.
The benefit for organizations and the community lays in the optimization of their freight logistical processes.

This qualification seeks to establish fundamental knowledge and skills in Freight Handling Logistics and to provide the necessary competencies for people who are new in the field as well as to other people who may be experienced in freight logistics.

Completing this qualification will enable you to work towards a career in the management of the Freight Handling Logistics environment. This course is designed to give you a comprehensive understanding of logistics, freight operations, and supply chain management.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Freight Supervisor
- Logistics Officer
- Warehouse Operations Supervisor
- Freight Forwarding Officer
- Customs Liaison Officer
- Transport or Fleet Coordinator

REQUIREMENTS:

- Bachelor Pass of Diploma Pass
- Mathematics/Mathematical Literacy: Level 5
- English: Level 5
- Geography: Level 5

CLEARING & FORWARDING AGENT

NQF 05 | 10 MONTHS

CREDITS 121 | SAQA I.D: 94025

A Clearing and Forwarding Agent is responsible for customs clearing procedures, ensure that insurance, export/import licenses, and other formalities are in place to facilitate the movement of cargo both internationally and locally, and to ensure compliance with current legislation.

All learners will be exposed to the following software systems as part of the programme:
Cargowise, EasyClear, Muvyr.

REQUIREMENTS:

- Grade 12 Bachelor Pass
- Mathematics Level 05
- Mathematical Literacy Level 05

This industry is also a service provider of warehouses, transit sheds and the associate management of shipment tracking, costing, and accounting data.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Clearing and Forwarding Agent
- Customs Agent
- Import/Export Administrator
- Freight Forwarding Officer
- Customs Compliance Officer

Ver.1 | © 2026 SA Maritime School & Transport College

SHIPPING AGENT

NQF 05 | 18 MONTHS

CREDITS 240 | SAQA I.D: 110394

Shipping Agents are responsible for the planning for the port call of a ship and managing its port operations and post departure activities. In simple terms, this refers to the receiving and dispatch of a ship at a port.

The role of a shipping agent is vital to ensure that vessels are expedited through our ports, by liaising with the various service suppliers and authorities for scheduling and delivery of goods and services to the vessel.

The Shipping Agent liaises and processes transactions of a ship or cargo on behalf of the ship owners, ship managers and ship charterers.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Shipping Agent
- Shipping Clerk
- Port Operations Officer
- Port Agent
- Vessel Agent
- Ship Operations Coordinator

REQUIREMENTS:

- Bachelor Pass
- Maritime Economics Level 05
- Geography Level 05
- Mathematics Level 05
- Mathematical Literacy Level 05

If you did not study the subjects listed above, you must have an average of at least 60%.

OUR COURSES

SUPPLY CHAIN MANAGER

NQF 06 | 18 MONTHS

CREDITS 180| SAQA I.D: 111357

ONLY AVALIABLE AS ONLINE BLENDED

Learners will be able to take responsibility for the planning, coordination, and management of supply chain operations, including procurement, logistics, and service delivery across local and international contexts. The benefit for organizations and the community lies in the improved efficiency, cost-effectiveness, and strategic alignment of supply chain processes.

This qualification seeks to establish advanced knowledge and practical skills in Supply Chain Management and to provide the necessary competencies for individuals entering the field, as well as those with existing experience who wish to progress into management roles. It equips learners with the ability to develop operational plans, implement supply chain strategies, and monitor performance to ensure effective service delivery.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Develop and implement supply chain operational plans
- Coordinate procurement, logistics, and service delivery functions
- Set and monitor performance objectives and targets
- Identify and manage risks and compliance requirements
- Develop and apply operational procedures and guidelines
- Monitor, evaluate, and improve supply chain performance
- Manage contracts, service level agreements, and supplier relationships

OUR COURSES

SUPPLY CHAIN EXECUTIVE

NQF 07 | 18 MONTHS

CREDITS 180 | SAQA I.D: 111386

ONLY AVALIABLE AS ONLINE BLENDED

Learners will be able to take responsibility for the development, implementation, and oversight of supply chain strategies and policies across organisations operating locally and internationally. The benefit for organisations and the community lies in improved coordination, strategic alignment, and overall supply chain performance.

This qualification seeks to establish advanced strategic knowledge and skills in Supply Chain Management and to equip learners with the competencies required to operate at an executive level. It prepares individuals to develop integrated supply chain strategies, review policies, and monitor performance to ensure effective and sustainable operations.

A QUALIFIED LEARNER WILL BE ABLE TO PERFORM, INCLUDING BUT NOT LIMITED TO:

- Develop and implement supply chain strategies aligned with organisational goals
- Develop and review supply chain policies and frameworks
- Monitor and evaluate strategy and policy implementation
- Conduct organisational and supply chain analysis
- Identify and manage risks, compliance, and supply chain vulnerabilities
- Apply performance management to improve strategic outcomes

SHORT COURSES

DRIVING ACADEMY

- Code 08 or 10 driving lessons
- Code 08 or 10 car/truck hire for licensing
- 3.5 Ton Forklift license & renewals

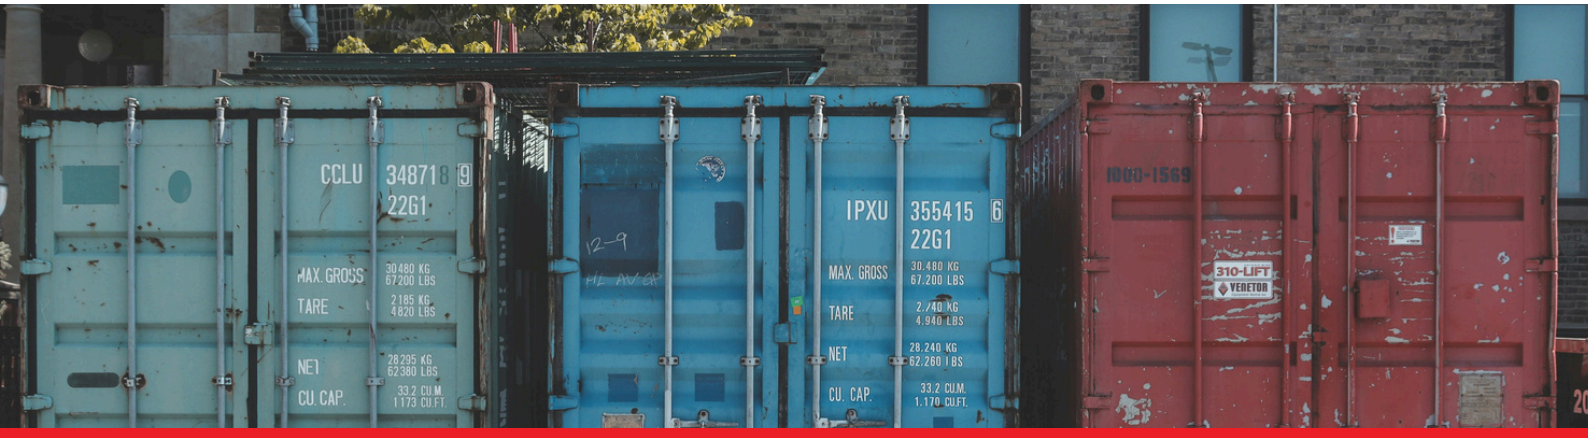

CARGOWISE WORKSHOP

The CargoWise workshop provides learners with a practical introduction to using the CargoWise system in the maritime and logistics environment. The session covers system navigation, shipment creation, documentation, and basic freight forwarding workflows. Learners gain insight into how CargoWise is used to manage imports, exports, tracking, and compliance, linking classroom theory to real-world industry operations.

INCOTERMS WORKSHOP

This training workshop assists the participant in demonstrating knowledge about International Commercial Terms (INCOTERMS), the roles and responsibilities regarding carriage, costs and risks and making recommendations regarding the usage of international commercial terms.

The course will cover updates from the 2010 to 2020 Incoterms, addressing risks, costs and responsibilities of importer and exporter, with an emphasis on the impact for the freight forwarders (operating both on and behalf of either the importer or exporter).
